

Material Safety Data Sheet Statement

Product(s)

All Lamb Milk Replacer products supplied by Volac International Ltd.

Statement

To whom it may concern

Volac as a supplier of food and feed is exempt from the requirement to supply Safety Data Sheets - based on Article 2 (6) of REACH Regulation 2006/1907 (as amended) which states that the requirement for a safety data sheet does not apply to food or feeding-stuffs in the finished state. In the absence of legal definitions, trade associations and REACHReady (a subsidiary of the Chemical Industries Association) have defined 'finished state' as meaning 'ready to be used by the final user'. Although dairy materials are being supplied B2B they remain in the state supplied when they reach the end consumer and are not classified as dangerous.

A general Safety Information Sheet is available on request.
