ADVANCED RAINWEAR

INTRODUCING ISO940ECO

Designed to withstand the rigours of farming life, all ISO940 garments are 100% waterproof and breathable. This range features tough outer fabrics with high denier rating to resist abrasion and rip-stop thread for added protection. To ensure each garment is completely waterproof, an advanced coating is bonded to the outer fabric and all seams and stitching are seam-sealed. On the inside, a duo-layer breathable liner.

Made from recycled materials

- Each Parka is made from 25 recycled plastic bottles and 2 kg of waste yarn.
- Each Overtrouser is made from 12 recycled plastic bottles and 1 kg of waste yarn.
- Each Bib Overtrouser is made from 17 recycled plastic bottles and 1.4 kg of waste yarn.

ISO940ECO PARKA

A farmer favourite for over 10 years

Breathable

Rated at 5.000g/m², effectively wicks moisture from your body.

Five pockets

Two easy access internal waterproof cellphone pockets and three large outer storage pockets

Both layers seam-sealed

All seams in both the outer layer and lining layer are seam-sealed to ensure 100% waterproofness.

Adjustable hood

Close-fitting hood design for visibility

Two-way zip

Adjust to the situation with a versatile and practical two-way zip.

4-Layer 100% waterproof, durable fabric

Rated at 25.000mm/m², 100% waterproof ripstop nylon outer fabric with a 100% waterproof polyester lining.

Neoprene cuff

Neoprene cuffs keep you dry and stop water running up your arms.

Magnetic closures

Domes are a pain, so we got rid of them. Easy single hand open/close of the storm flap.

ISO940ECO BIB OVERTROUSER

Also available as trousers

4-Layer 100% waterproof, durable fabric

Rated at 25.000mm/m², 100% waterproof, ripstop nylon outer fabric with a 100% waterproof polyester lining.

Inside bib pocket

For ease of access.

Adjustable elastic shoulder straps

Sturdy buckle to keep your trousers where they should be.

Side access pocket openings

For ease of access to your internal pockets.

Magnetic cuff gusset with zip

For ease of taking on and off with boots.

Both layers seam-sealed

All seams in both the outer layer and lining layer are seam-sealed to ensure 100% waterproofness.

Shaped knees for flexibility

Designed with the worker in mind, all day comfort without restriction.

Breathable

Rated at 5,000g/m², effectively wicks moisture from your body.
